

Accurate, Detailed Maps with Regular Updates

Visit our web site at www.adci.com to download a working sample.

ADCi Supplied Formats

- ARC/INFO Coverage
- ArcView (.shp)
- ARC/INFO Export (.e00)
- PC ARC/INFO
- ArcCAD

ArcView Project

Start projects quickly with a project file (.APR) that:

- Opens all map components
- Opens coverages in logical order
- Colors map features consistently
- Assigns appropriate feature style

Coordinate System Options

- Geographic decimal degrees (lat/long)
- Other coordinate systems available

Geographic Coverage

Available as county, Tele Atlas Coverage Area, state, or entire U.S. for the contiguous United States and Hawaii.

Accuracy and Currency

MultiNet maps comply with National Map Accuracy Standards for 1:24,000 scale maps for most urban areas. Rural areas comply with 1:100,000 scale map standards.

MultiNet is a detailed vector map developed by Tele Atlas N.A. (formerly known as Etak). ADCi configures the maps to work with ESRI software and adds double-line roads. ADCi also designs map features for easy identification. MultiNet is highly accurate in metropolitan areas. Updates, which are primarily in urban areas, may include roads, road names, addresses and ZIP codes.

ADCi Enhancements

- Custom symbol sets
- Custom look-up tables
- Address coverage built for ARC/INFO 8.x
- Includes separate variable-width single- and double-line road files
- Optional road widths available
- Roads, landmarks and political boundary areas with cartographically placed annotation
- ArcView project file (.apr) supplied

Coverages & Themes

ADCi has extracted and organized related features into themes with descriptive coverage names and look-up tables with appropriate symbol sets.

Road Features

14 classifications including street, road, and highway with text.

Hydrography Features

Rivers, streams and shorelines

Miscellaneous Transportation Features

Airports

Point Coverages

CITIES	LNDMRK_P
MISC_P	RAIL_P
ROADS_P	PARKS_P

Line Coverages

HYDRO_L	RAIL
ROADS (single-line)	
ROADS_D (double-line)	

Area Coverages

COUNTY	HYDRO_A
MCD	MSA
PARKS_A	PLACE
ZIP (where available)
